

whatex

Team Inbox for WhatsApp

About Whatex

Whatex is a business WhatsApp solutions provider, enabling brands and teams to connect with consumers over WhatsApp.

Consumers have moved on from email and the modern lifestyle means people are harder to connect to.

Utilising the power of WhatsApp API, Whatex opens up WhatsApp as an official communications channel for your sales and service teams.

Why WhatsApp?

Messaging is the preferred method of communication in our personal lives.

WhatsApp is the most popular messaging app in over 100 countries and boasts over 2 billion active users.

The average WhatsApp user opens WhatsApp 23 times per day.

Personal email accounts are drowned in spam and junk.

75% of callers hang up at voicemail.

Open and read rates are 7 times better in WhatsApp than in email.

The Tech Explained

Consumers using WhatsApp as normal

WhatsApp API via Gupshup enabling consumers & businesses to message on WhatsApp

Whatex software hosted on AWS in Europe

Business using the Whatex app and cloud software to message consumers

How Whatex Can Help You

Your current Issues with using WhatsApp without Whatex

- ✗ Customer conversations are being conducted on personal WhatsApp accounts by your staff.
- ✗ This increased during COVID & has now become the norm.
- ✗ The business has no visibility of these conversations meaning they cannot be viewed, tracked or reported on as well as not being captured in the CRM.
- ✗ Valuable data and information regarding key relationships sits with the staff, which is a business risk.
- ✗ Client data cannot be deleted if requested.
- ✗ Data is being processed outside of GDPR regulations, and in many cases, in breach of WhatsApp terms & conditions.

The Solution

Utilising a WhatsApp Business Solution (API) ensures your key and confidential information is captured in a centralised location and stays within the business and fully GDPR compliant.

How Whatex Can Help You

The communication Gap

- × Customers are often at work and are not easily accessible during the day.
- × Notifications for personal email accounts are often disabled, meaning open rates are poor (sub 20%). WhatsApp has a 9% open & read rate. 7 times greater than that of email.
- × B2C's report that over 70% of their outbound calls don't get answered.
- × Important updates can be missed & scheduling the next stage can become extremely frustrating.
- × Failing to communicate effectively can lead to reduce the customer experience and the value of the brand.

The Solution

Utilising a WhatsApp Business Solution (API) ensures access to your customer WhatsApp for ease of communication leading to a higher read & open rate, quicker response and improved CX.

Collaboration

- Shared team WhatsApp inboxes.
- Permission based access to work related chats with ability to assign to individuals & teams and tag for broadcast marketing.
- Media rich to send & receive documents, images, barcodes, URL's & videos.
- Analytics & Reporting.

Integration

- Drop conversations into your CRM so the business has wider visibility of communications.
- Enable customers to start a chat from your website, social media or QR codes.
- Integrate into your phone system to reduce call abandonment rates by auto sending WhatsApp messages.

Automation

- Use bots to prequalify sales leads and enquiries.
- Route automatically to the correct team for quicker customer response.
- Manage out of hours requests easily.
- Auto respond to 3rd party email leads & forms in WhatsApp.

Encryption & Compliance

- GDPR Compliant WhatsApp.
- Adhere to WhatsApp's Personal & Business Policies.
- MifidII Compliance.
- End to End Encryption.
- Phishing resilient.

How will customers know you're on WhatsApp?

STAGE 1 – THE BASICS

Not every business generates high web traffic, so placing a widget on a website is no guarantee of generating leads, it's the equivalent of placing your phone number on your website.

STAGE 2 – STAFF ADOPTION

Your team begin to follow up phone calls (be it answered or unanswered) with WhatsApp messages. With a 96% open & read rate, your team soon realise that this is most efficient way to communicate.

STAGE 3 – INTEGRATION & AUTOMATION

Lead2WhatsApp , Voice2WhatsApp & Zapier automation drive faster outcomes to a range of enquiries, be this lead engagement, sales progressions, and just day to day issues.

The screenshot shows the 'Sent Template Messages' page in the Whatex dashboard. The page has a sidebar with navigation icons and a top navigation bar with the 'whatex' logo and 'Sales Team' profile. The main content area features a table of sent messages with the following columns: Name, Phone Number, Template Name, Tags, Date Time Sent, and Sent From. There are filters for Status, Date Range, and Account. A search bar and an 'Add template message' button are also present.

Name	Phone Number	Template Name	Tags	Date Time Sent	Sent From

Why Whatex?

The communication Gap

- ✓ We provide an end-to-end solution including:
 - your WhatsApp number(s) - you do not need to secure this from a 3rd party
 - Facebook verification support
 - The software
 - Virtual training on the platform
- ✓ Our costs include support via phone, email & WhatsApp
- ✓ There are no grey areas over any system issues between 3rd parties
 - as we provide the entire solution, we own any system errors
- ✓ Our people
 - This is our value add to make sure you achieve your goals in the channel
